ARIEL™ PENDANT

AL1-P4AA-26-0W-SGP

• The low-profile trim ring of the Ariel was originally designed for the University of Toledo bookstore.
• A transitional design makes it a welcome piece for both contemporary and traditional applications.
• Spun from solid, non-ferrous 0.040” thick brass or 0.064” thick aluminum.
• Thermally formed acrylic ranges from 3/16” to 1/4” thick, depending on size. Virgin white acrylic is UV stable, and all faux acrylic colors are mixed completely through to avoid noticeable fading.
• White acrylic is UL-94 HB Flame Class rated.
• OCL metal finishes are applied by hand and receive a protective clear coat lacquer.
• 21 standard powder coat paints offered, however all RAL colors available.
• Fixture offered with a variety of compact fluorescent and incandescent optic packages.
• Contact factory for additional modifications or options.
