

“I Just Like it That Way”

Customizing architectural lighting

1.0 AIA LU Hour

PROGRAM DESCRIPTION

Looking for a unique architectural lighting aesthetic for your next project? This one-hour course outlines the possibilities and process for specifying customized architectural lighting. Specifiers will gain confidence in applying their creativity to architectural lighting design and will learn how to evaluate project opportunities where a customized solution is appropriate. Practical guidance in working with lighting manufacturers is presented to enable the delivery of customized lighting solutions on time and within budget.

LEARNING OBJECTIVES

At the end of this course, participants will be able to:

- Explain the conditions when a custom or modified standard luminaire would be the appropriate solution in developing unique lighting aesthetics
- Outline the steps to follow when envisioning, communicating and evaluating customized lighting solutions
- List ways in which a custom manufacturer can assist the specifier and owner in developing and delivering customize lighting projects on time and within budget
- Highlight examples of creative approaches to modifying standard fixtures or producing custom designs
