GLOWSTICK PRINTZ 3D PRINTED PENDANTS

Three Distinct Forms. One Familiar Glow.

Glowstick Printz pairs the familiar end-lit acrylic core of Glowstick with three distinct shades produced through additive manufacturing. **Undula**, **Volta**, and **Torra** explore rippling surfaces, twisting ribs, and expanding contours, giving each pendant its own character within a shared slender format.

Light reveals the printed geometry, bringing depth to the surfaces and highlighting details that change with the viewing angle. Use one form as a vertical accent, repeat it for a consistent rhythm, or combine the three in a sculptural grouping.

SCULPTURAL DETAIL. SPECIFICATION-READY PERFORMANCE.

- **Additive-manufactured shades:** Clear PETG shades with surface texture and sculptural contours built into each form
- **Three shade designs: Undula, Volta,** and **Torra,** each available in 24", 30", and 36" lengths
- **LED performance:** 875 delivered lumens at 3500K, 90+ CRI, with 12W system wattage
- **Color quality:** 2700K–4000K in 90+ CRI (R9 >50)
- **Dimming standard:** 0–10V to 1% minimum
- **Serviceable construction:** Field-replaceable LEDs and drivers
- **Recycled materials:** Shades made with a minimum of 85% post-industrial recycled PETG
- **Canopy options:** Surface canopy with integral driver or flat canopy with an OCL recessed junction box and integral driver
- **Compliance:** ETL listed for dry locations; RoHS compliant; Build America, Buy America (BABA) compliant
